

**W**hen was the last time you took a course on prayer and got a grade for it? Who taught you to engage in this sacred art? Why do you pray and how frequently? For what do you pray and how do you know you are getting through? In other words, how effective or satisfying is your practice of this discipline that 55 % of Americans say they practice every day, according to Pew Research from 2017?

Let's join the disciples of Jesus in their quest to learn how to pray as he prayed. ***"One day Jesus was praying in a certain place. When he finished, one of his disciples said to him, 'Lord, teach us to pray as John taught his disciples'"*** (Luke 11:1).
